Loving You

Vanessa Williams

Loving you I could spend forever
Loving you could transcend the heavens 'cause of you
You turned all my gray skies blueSince we met, yours is the only kiss I can't forget
You're my Romeo and I'm your Juliet
You're like a dream come trueDon't need no money, no fortune or fame
Just leaves you empty at the end of the game
Long as I got you here beside me I don't give a damn about it
Nobody can come before my manYou and I, we got that thing that no one can deny
And I'll be your woman 'til the day I die
Forever loving youDon't need no money, no fortune or fame
Just leaves you empty at the end of the game
Long as I got you here beside me I don't give a damn about it
Nobody can come before my manYou and I, we got that thing that no one can deny
And I'll be your woman 'til the day I die
Forever loving you
And I will be forever, forever loving you
