

# Lonestar

## Bleach

My fee areplanted I can't fly...I'd like to moonwalk through  
the sky...I'd like to tiptoe past this atmosphere ~ And so  
I gaze past satellites...Past suns and stars and endless  
nights...It's clear to me, I see I'm small ~ Compared to You  
I'm nothing at all ~ Beyond the depths of space and time...  
You built these things that remind...Setting suns and shooting  
stars...Say who You are ~ You're the Lonestar ~ And I'll lift  
my head up to the sky...Your hand of greatness touches mine...  
I'll be content, I know I'm small ~ Compared to You I'm  
nothing at all...
