Summer Nights

Vanessa Amorosi

Can you remember when you were young?
The love you had for everyone
The weekends when you'd play outside
Nothing was too hard to try
Now that I've grown up
I love the smell of summer nights
Reminds me of when I was nine
Having a crush on the kid at school
When lolly cigarettes were cool
Not so much has really changed
Still feel like a kid most days
Too hard to sleep, it's alright
I love the thought of summer nights
Asking if my friend can stay over
Crying on my mumma's shoulder
Waiting for the ice-cream truck
Oh, Telling my sister to hurry up
Now that I've grown up, Oh
I love the smell of summer nights
Reminds me of when I was nine
Having a crush on the kid at school
When lolly cigarettes were cool

Not so much has really changed
Still feel like a kid most days
Too hard to sleep, it's alright
I love the thought of summer nights
I love the summer when the sun rises
Don't care how old I become I still get so excited
I love the smell of summer nights
Reminds me of when I was nine
Having a crush on the kid at school
When lolly cigarettes were cool
Not so much has really changed
Still feel like a kid most days
Too hard to sleep, it's alright
I love the thought of summer nights
I love the smell of summer nights
Reminds me of when I was nine

Having a crush on the kid at school
When lolly cigarettes were cool
Not so much has really changed
Still feel like a kid most days
Too hard to sleep, it's alright
I love the thought of summer nights
