Celestial Dream

Stratovarius

Here in the universe
I find some things that are so hard to understand
The vastness of space just takes my breath away
I see through history
The years they come and go
The seconds that will shape my destiny
The time that we spend here
Is precious that I see so clearWhat is our place in here?
What is the meaning of the pain we feel?
Where did all this come from?
The galaxies, the moon, the stars
Oh I don't know
I really want to know
What is the meaning of evolution?
They say that we are the crown of all creationSo let's break free from these chains
Of fear, hate and greed
And join together singing our celestial dream
Freedom is awaiting
For those who take the path less traveled
And in the end we'll sing our celestial dream
Oh oh woh
