

Amazing Grace

Phil Vassar

I took a drive today
Saw an old willow tree
I thought about a bedroom window
Thought about you and me
Yeah, talk about an endless summer
I'm still living it now
Burning in the heat of midnight
I'll never forget how
You would whisper
And pull me to you
Softly kiss me and
Hallelujah
I told you that I loved you
And watched the tears fall down your face
Your sweet face
Back in the days when you were amazing Grace
Your Daddy was a Deacon at the church
I wasn't foolin' him
He knew everybook, chapter and verse
Of a young man's sins
But what about those nights
I was just down the hall
Holdin' on to Heaven
Prayin' that we wouldn't get caught so
You would whisper
And pull me to you
Softly kiss me and
Hallelujah
I told you that I loved you
And watched the tears fall down your face
Your sweet face
Back in the days when you were amazing Grace
Oh, how sweet the sound when
You would whisper
And pull me to you
Softly kiss me and
Hallelujah
I told you that I loved you
And watched the tears fall down your face

Your sweet face
Back in the days when you were amazing Grace
Oh, amazing Grace
Hallelujah
