

Don't Stop the Night

[Robin Gibb](#)

Here is the day I'm feeling blue
It's Saturday night, I'm waiting for you
You said you'd come 'round - at 8:34
With some other guy, you pass by my door I thought you were good
I felt you were real
A special kind of girl So I walk down the street, into the town
I'm following you and your new love around
She said to go back to where I belong
She didn't care and I was so wrong Forever I know
I will never let go
Till she's mine, mine Baby, believe what you like
Don't stop the night
Baby, believe what you like
Don't stop the night Ah-ah-ah, ah-ah-ah-ah
Ah-ah-ah, ah-ah-ah-ah Made up my mind - I'm gonna be strong
Don't wanna look sad when she comes along
She may be with him, but I'll play along
I've waited all year, the night is so young Love is like a miracle
A distant shining light So many days
I would hope and pray
She was mine, mine Baby, believe what you like
Don't stop the night
Baby, believe what you like
Don't stop the night Baby, you said you'd never go
And now - you don't wanna know
Baby, you know just what you found?
Someone who's only hanging 'round Baby, believe what you like
Don't stop the night
Baby, believe what you like
Don't stop the night
Baby, I know what you like
