

# Night Stalker

[André Charlier](#)

Demon raider in the street  
Every day is trick or treat  
For devils dance within his mind  
A witching hour for all time Look out tonight  
He's creeping up behind  
Death by moonlight  
His blade of steel will shine Nightstalker coming for you, nightstalker  
Prowler on the run, shadow striker with a gun  
Nightstalker coming for you, nightstalker  
You better run and hide or you know you're gonna Shadow rider on darkwing  
Devils dance and demons sing  
Siren songs into his mind  
A dark prince of the fugitive kind Desire to rip your flesh tonight  
And drink your blood til morning light  
He licks his blade and sets his sight  
A lone wolf running in the night Look out tonight  
He's creeping up behind  
Death by moonlight  
His blade of steel will shine Nightstalker coming for you, nightstalker  
Prowler on the run, shadow striker with a gun  
Nightstalker coming for you, nightstalker  
You better run and hide or you know you're gonna Look out tonight  
He's creeping up behind  
Death by moonlight  
His blade of steel will shine Nightstalker coming for you, nightstalker  
Prowler on the run, shadow striker with a gun  
Nightstalker coming for you, nightstalker  
You better run and hide or you know you're gonna  
Feel it deep inside, creeping up behind ya  
Better run and hide or you know your gonna die
