

My Vagina

NOFX

My vagina has two sets of lips
But I don't get monthly blood drips
My vagina hardly even used
My vagina's got lots of extra skin
They took my outtie and made it an in
Changing Donnie to Marie Osmond
Operation, sex-cessful
But now I gotta pee through a miniature hole
Gotta remember to put the seat down
And when I wipe my ass, I go from front to back
'Cause I don't want a bladder infection
I never thought I'd miss my vas deferens
I trade it in for a pair of used cans
Now I get to hang with lesbians
