

You and Your Band

Pyogenesis

[Music & Lyrics: Flo V. Schwarz]When you're trying to be special

And you play an instrument

In your band

And the goals you have get higher

And you know you'll reach them all

In your band

And the kids at school they fool you

Just because you love your band

Love your band

And one day, you can believe me

They will tell they were a friend

Of your band

No no no. You and you band, you and you band

No no no. You and you band, you and you band

Two years later there's a contract

Of a company that counts

On you band

Then you'll tour with one of your faves

And they're friendly and respectfull

To your band

Now you will know that no longer

people rate you as a person

But your band

At least now my friend, that's certain

You will understand

Other bands

No no no. You and you band, you and you band

No no no. You and you band, you and you band
