

Common Girl

Beach House

You used to live in this part of town
Until you hit the ground
She makes movies where she cries on cue
She still lives downtown But it's ok
'Cause she's common anyway
And the streets are all filled
With the strangers, who pay the bills She's the one with the lazy eye
Promises never come filled
Takes the pills and hides the notices
Cartoon rings of ill will But it's ok
'Cause she's common in every way
And the streets are all filled
With the strangers, pay the bills
