Last Call (Brap Version)

Skinny Puppy

trip the long dusty road care denounce no overload
in as much as what's become a sterile crashed up iceberg tomb
mist on ash on murky shore now begin don't let it show
last call open bar never closing reach beyond
answers even without feeling no fulfilling close the door
cancellation is the feel respectfully to never be
watch the perfect dna switch pretend at last to see
ask direction no correction map the course to end the way
last call a shallow pond slow descending so slow to drown
catch the stall wishful air walk among do seem to care
symbolize simile put in words so simply
on the top of what's become a two-fold generation boomon the surface righteous air deliver on the right to share
mesh the fine nuclear bond crawl between the chromosome
