

# Obstinate Heart

## Intergalactic Lovers

Black veil, covering the hole in my heart that you shot out  
Your finger at the trigger, never thought you had the guts to shoot me outIt's such a sad thing, it's such a sad  
thing  
The way's these bruises are  
It's such a funny thing, it's such a funny thing  
How every end is a new startWe went from strangers to friends for something that I  
Can't comprehend  
For engineers I gave you my word to lose something beneath my curvesIt's such a sad thing, it's such a sad thing  
The way these bruises are  
it's such a funny thing, it's such a funny thing  
How every end is a new startWho are you? Who are you?  
To doubt my, doubt my heart?  
Who are you? Who are you?  
To tell me how a love should feel like?  
Who are you to doubt my heart?What's left to say to those convinced by the only ones who are to blame?  
Promised to keep you close, but if you don't believe in faith, you don't have to stayIt's such a sad thing, it's  
such a sad thing  
The way we grew apart  
It's such a funny thing, it's such a funny thing  
How every end is a new start
