

Ladylike

Rock Star Supernova

So when she lays down it'll be

With me

Lord, she'll lay down with me

And when she walks out it'll be

On me

Lord, she'll walk out on me

When she kneeling it'll be

For me

Lord, she's kneeling for me

And if I need you to be secure

It's cause I'm not

You're so ladylike and more

When she focused it'll be

On me

Lord, she's focused on me

And if she walks with it'll be

With me

She's walking with me

And if I need you to be secure

It's cause I'm not

You're so ladylike and more

If she wishes it'll be

On me

Lord, she's wishing on me

And when she's hopeless

Lord, she's hopeless with me

And if I need you to be secure

It's cause I'm not

You're ladylike

I need you to be secure if I'm not

You're ladylike and more
