

# 58 Minutes Pour Vivre

## Le Matos

I know some things that you don't know  
It's gonna be very difficult for u to understand it  
5 billion people died in 1996 and 1997  
Almost the entire population of the world  
About 1 percent of us survived  
I'm simply trying to gather information  
To help the people in present trace the path of the virus  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
