Forgive And Forget

Auras

The bitter feelings!
The twisted lies!
Accusations swarm like flies!
Unsheathe the knife, the choice gives rise!
Betrayal's where my heart collides!
It's time! to rise!
Against the lies!
The selfish learnings!
Clever disguise!
Can't see past your own demise!
It's yourself that you despise!
There's no one left to hear your cries!
[CHORUS]You mean nothing to me
Never have and never will
I forgive and forget you
It's time...FOR YOU TO DO THE SAME!
Delusions plague you!
Green to the core!
It's a desperate grab for more!
You bit the hand that fed, what for!?

A sad attempt to settle a score!?
It's time! to rise!
Against the lies!
A selfish witch hunt!
Turned on its side!
How does it feel to burn alive!?
Secure the post, the flames arise!
Ignited thatch reflects in my eyes!
Oww!
[CHORUS]OWW!
[Brief Instrumental Break](Hey, hey!) IT'S TIME!
(Hey, hey!) TO RISE!
(Hey, hey!) AGAINST! THE LIES! OW!
[CHORUS]NOW!!
