

We All Love Peanut Butter

Ass Ponys

mustard gas and curly fries
boys do well but girls, they fly
you and i will take a trip now
do the things that we think are hip, now i said, we all love peanut butter take a feather and fly it from a roof
maybe do a swan dive from a roof
some say she's crazy and some say i'm a nut
peanuts are nice but the acid is rare i said, we all love peanut butter take your beat off hand and fly off in a rage
take your beat off hand and seal it in a cage
now my story is comin' to an end
make sure it's a story and not your best friend i said, we all love peanut butter
