

Sign of the Times

Professor B and the Army of Love

It's a sign of the times, there ain't no love on anyone's mind A sign of the times It's a world that's
You see there's killings everywhere, more babies 'bout to die. Where are the leaders of this world Why won't
open up their eyes

It's a sign of the times, there ain't no love on anyone's mind A sign of the times It's a world that's
To the nations everywhere, who all have much to say, and with with technology the way it is, we're all gonna
have hell to pay

Cause it's a sign of the times, there ain't no Love on anyone's mind. A sign of the times, you see there's
every line

Oh What A Love When the Sun Is Shinning, Oh What A Love When the Sun Is Shinning

You see Love's the only way, don't fail to realize. We all have the seed within ourselves, to let grow and to
fertilize

Cause it's a sign of the times, It's a world that's yours and mine. A sign of the times, It's a world that's
mine

Oh What A Love When The Sun Is Shinning It's a world that's yours and mine
