

# 23 Floors Up

## Teleman

Another day waking up  
With your conscience stuck in your hotel room  
23 floors up  
Oh love has come to town  
Caramel in the mind and I can keep good time  
The city below could be anywhere  
Oh love is pouring down  
Do you remember how we started out  
Feeling round in the dark  
We just didn't know how  
Oh leave it all behind  
Or carry it on the one pigeon song  
Sits on the wire tells me nothing's wrong  
Hey sing to me your song  
I'm leaving you behind  
I don't need anyone now  
I'm leaving you behind  
I can't feel anything  
Oh let me float apart  
I don't need anyone now  
I'm leaving you behind  
There's nothing like waking up with your conscience stuck in your hotel room  
23 floors up  
Oh love has come to town  
Combination is fine and I can keep good time  
The city below is anywhere you like  
Oh love is pouring down  
Oh love is pouring down  
We don't need anyone now  
Oh love is pouring down  
I don't need anyone  
So slowly spinning round  
I can't feel anything now  
Oh love is pouring down  
Oh Love is pouring down  
You don't need anyone now  
Oh love is pouring down  
I don't need anyone  
So slowly spinning round  
I can't feel anything now  
Oh love is pouring down
