

# Never

## Umbra Et Imago

A day made me see all real  
Now I try to keep all clear  
You're died in your best years  
I don't try to grieve and shed wild tears  
I'll never forget you name  
I try to live on and do all the things same  
I don't feel my loneliness on empty days  
But I fill each waking hour in useful ways  
I'll never waste my time  
I'll never forget your smile  
I always hold you in my near  
I try to comfort and cheer  
You'll ever be in our hearts  
And souls you'll never be alone  
though I hear you cry  
I'll never be afraid to die  
I'll try to exist again  
And try to return the pain  
Never, never
