Soldier's Prayer

Mountain Heart

His feet had barley hit the ground
When he knew he was in trouble
With his band of brothers
He was there to save the world

Looking up at that mountain
He cried father please forgive me
And as the metal started hitting flesh
The soldiers prayer was heard

Please remember me
Tell my children that I love them
Please remember me
And all that I die for
Say you'll know my face
When that role is called up yonder
Please remember me lord
Shipping back to shore

His feet had barley hit the ground
When he knew he was in trouble
And with his band of brothers
He was there to save the world

Looking down from that cross
He cried father please forgive them
As the metal started hitting flesh
The soldiers prayer was heard

Please remember me
Tell my children that I love them
Please remember me
And all that I die for
Say you'll know my face
When that role is called up yonder
Please remember me
Shipping back to shore

Please remember me boys
Shipping back to shore
