Wolves

Reed Foehl

Woles - Reed Foehl

Dont let the wolves
Crowd around your door
Tell them they're not welcome anymore
Tell them they must have the wrong floor
And all the howling is just a bore

La la la la

Those things you say
Can box you in
The clothes you wear and the places that you've been
If you miss them
There will always be more
Wild wolves to crowd around your door

Lalalala

I've been in your shoes
I've been in theirs
I've waited for weeks now at the bottom of your stairs
Get dressed now the night fall is coming
While around the house wild wolves will be running

La la la la

You can wait forever
In the tallest tower
Feel your old hair growing longer and longer
Draw the curtain and unbolt the door
And choose the one you most adore

La la la la
