Who Do You Think?

Interpol

Slow decay, I won't stop fighting, yeahWho do you think that is there?
I came to fight, I am in the air
I know you follow the body, let go now
To the coast of hypnotic we goI only call them when I know
I don't see them
I only call them when I know
I don't see themWho do you think that is there?
I show beyond, so beyond compare
I always fall in these fights, I know why
Always fall in these fights, I know whyControlling the age, it takes a toll on my brain
Now who do you think that is there?Only call them when I know
I don't see them
I only call them when I know
I don't see themSlow decay, I won'tWho do you think that is there?
Bite to stripe,bleeding out of despair
I know you follow the body, let go now
To the coast of hypnotic that won't stop nowYou think you can taste
Or we can make it your own way
Now who do you think
I said who do you think now?Oh, how I pass the days
You know how much I care
Oh, through the wax and wind
You know I will be there
Oh, that's your fading grace
You know now not to stareSlow decay, I won't stop fighting, yeahWho do you think that is there?
I came to fight, I am in the air
I always fall in these fights, I know why
And from the birth strings of life I go rightBut controlling the age, it takes a toll on my brain
Now who do you think that is there?Only call them when I know
I don't see them
I only call them when I know
I don't see them
