

# Break the Silence

## reAdjust

You make me feel so alive  
That I'm tryin' hard not to make moves  
Choosin' the wrong place and time  
Everyone will know the minute we let it go  
I can't hold it anymore, let's be original  
No holes barred  
Can you feel it comin' along?  
Break the Silence, non-directional  
No holes barred  
Can you feel it comin' along, it's on  
Hit the switch and turn me on  
You make me feel complicated sometimes  
I try to explain the way  
You took me turned it all around  
Everyone will know the minute we let it go  
I can't take it anymore, let's be original  
No holes barred  
Can you feel it comin' along?  
Break the Silence, non-directional  
No holes barred  
Can you feel it comin' along, it's on  
Hit the switch and turn me on  
'Cause I'm crawling my way through  
I'm falling into you  
I'm turning on things I thought I knew  
I'm slipping away  
Every time I try to be more like you

No holes barred  
Can you feel it comin' along?  
Break the Silence, non-directional  
No holes barred  
Can you feel it comin' along, it's on  
Hit the switch and turn me on  
No holes barred  
Can you feel it comin' along?  
Break the Silence, non-directional  
No holes barred  
Can you feel it comin' along, it's on

Hit the switch and turn me on  
Get it on if ya feel it comin' on  
If you're real then come along  
If you feel the song, come on  
Bring it on, bring it on  
Get it on if ya feel it comin' on  
If you're real then come along  
If you feel the song, come on  
Bring it on, bring it on  
Get it on if ya feel it comin' on  
If you're real then come along  
If you feel the song, come on  
Bring it on, bring it on
