Treat Me Like a Woman

Lisa Stansfield

Girls like tea, girls like me
Some girls like everything that they see
Some will chase, some like the wait
With me there's something you should get straightI'm not like the others, won't keep it under coverI'm all up in your face with everything I say
And I don't give me away
I'm all up in your face with everything I say
I won't give upSo come on down from those clouds
You've been hangin' with the wrong damn crowd
Better treat me like a woman
Treat me like a womanThrow those hands in the air
Do something so I know you care
Better treat me like a woman
Treat me like a womanDon't get too comfortable, that ain't good
[Incomprehensible] the way that a real man should
Stay with me, play with my hair
Always remember to stop and stareI'm not like your mother, don't treat me like your brotherSo get up in my face, I want you in my space
And I don't give that away
Get up in my face, I want you in my space
I won't give inSo don't be scared but beware
Your gonna get it if you're not right there
Better treat me like a woman
Treat me like a womanIf I'm in love, I would die
For the man that gives me chills inside
Better treat me like a woman
Treat me like a womanTreat me like a woman
Treat me like a woman
Treat me like a womanGirls like tea, girls like me
Some girls like everything that they seeSo come on down from those clouds
You've been hangin' with the wrong damn crowd
Better treat me like a woman
Treat me like a womanPut those hands in the air
Do something so I know you care
Better treat me like a woman
Treat me like a womanSo don't be scared but beware
Your gonna get it if you're not right there
Better treat me like a woman
Treat me like a womanIf I'm in love, I would die

For the man that gives me chills inside
Better treat me like a woman
Treat me like a womanGirls like tea, girls like me
Some girls like everything that they see
