

Concrete & Ash

Bonsai Nation

Feel your feet try to rise with the ocean?
Just how much longer until you get this joke, son?
And although this may seem alright
History shows you're gonna grow an appetite

Babylon runs the system
I and I am too afraid to listen
Babylon runs the system
I and I afraid not to listen

Who's here to do the deceiving,
A broken system or the people that it's feeding?
And what the fuck does any of it mean?
You got my heartbeat stopped but I cannot breathe
No, I am done with the bullshit
This is harassment, God knows I am over it
So think hard and wait for your say
And try not to stay away

Babylon runs the system
I and I am too afraid to listen
Babylon runs the system
I and I afraid not to listen

Babylon runs the system
I and I am too afraid to listen
Babylon runs the system
I and I afraid not to listen

Babylon runs the system
You and I tear it down from within, yeah
Babylon runs the system
You and I tear it down from within, yeah
