Perfume

Ji Nilsson

Breath in Breath out
I let it fill my nose and my mouth
And I can feel the scent of your hair everywhere
I gotta keep on breathing in breathing out
Oh baby there's something about you
That hits me so hard every time I really wanna make you mineYour perfume
In my room
I let you take over
Come back soon to my room
Flowers bloom whenever you're aroundAnd it smells like summer in here summer in here
May, June and July
It's like summer in here summer in here
Cherry blossom sky
It's like summer in here summer in here summer in here
It smells so good so good baby
So fresh and so clean, cleanBreath out breath in
I run my fingers over your skin
You're soft like summer rain baby summer rain
No more pain baby love
Breath in breath deep
The sun is down but I need to sleep
You take all my wrongs make them right and keep me up all nightYour perfume
In my room
I let you take over
Come back soon to my room
Flowers bloom whenever you're aroundAnd it smells like summer in here summer in here
May, June and July
It's like summer in here summer in here
Cherry blossom sky
It's like summer in here summer in here summer in here
It smells so good so good baby
So fresh and so clean, clean[I can't help myself love that scent baby where'd you get that perfume?
I need nothing else just that scent its summer in my bedroom] x2And it smells like summer in here summer in here
May, June and July
It's like summer in here summer in here
Cherry blossom sky
It's like summer in here summer in here summer in here
It smells so good so good baby

Oh you smell so good so good so good baby
So fresh and so clean, clean
