## Derik Nelson

I feel it coming soon we'll take the afternoon and drive away to places we can hide  
I'll spill my guts to you telling you the things that I wanna do with you but only watch we have arrived

So say goodbye to those other guys who don't care at all about you  
When I'm the one who can't live without you  
Honestly I'm coming clean I'll be anything you need just be with me  
Said I'll be anything you need at all

First stop we'll hit the beach the perfect spot just within reach for kicking off our shoes and feeling free  
We'll hold hands down by the shore I know you've probably seen love before  
But that's nothing next to what it's like with me

So say goodbye to those other guys who don't care at all about you  
When I'm the one who can't live without you  
Honestly I'm coming clean I'll be anything you need just be with me  
Said I'll be anything you need at all

Next stop we'll watch the sun set in the pacific  
We'll hear the humming roll of thunder in the distance  
The wind starts picking up and we run back to the car  
Taking refuge in the backseat as the rain begins to pour

Say goodbye to those other guys who don't care at all  
When I'm the one who's fallen for you  
Honestly I'm coming clean baby baby  
Just say goodbye to those other guys who don't care at all about you  
When I'm the one who can't live without you  
Honestly I'm coming clean I'll be anything you need just be with me  
Said I'll be anything you need at all
