

White Noise

[Ella Vos](#)

[Verse 1]

Pushing against the grain
Watch the clock tick and fade
Pray for a different scene
We can ask but won't receive[Pre-Chorus]
But you apologize over and over
You don't want to hear[Chorus]
Cause it's all white noise swallowing me
Taking your high horse and I'll be free
Cause it's all white noise swallowing me
Maybe we'll know why eventually[Verse 2]
We see through the stars
Burning in the atmosphere
Down on the boulevard
Tell me what I want to hear[Pre-Chorus]
But you apologize over and over
You don't want to know[Chorus]
Cause it's all white noise swallowing me
Taking your high horse and I'll be free
Cause it's all white noise swallowing me
Maybe we'll know why eventually
Cause it's all white noise swallowing me[Chorus]
Cause it's all white noise swallowing me
Taking your high horse and I'll be free
Cause it's all white noise swallowing me
Maybe we'll know why eventually
