

# City On Down

## O.A.R.

Well, in the end my friend, we will all be together again  
Clutching onto my hand, in a valley we'll stand, just living again  
And in a while we'll smile, march on another mile  
On hallowed hills, attached to the land we'll be still No one's ever gonna say a thing  
And we'll be together, together again  
Taking off to the city on down Just a while ago my soul was confused, amused at what he did not know  
But days went by, and amusement cried, I decide to let  
My soul fly on by itself, pick happiness up and bring it back to the shelf  
We'll be okay one day, in a valley we will stay, no more moving on I knew it was right here all along  
Won't have to hold your crown, no more looking around  
Just holding you tight in the city on down Just a while ago my soul was confused, amused at what it did not know  
Days went by and amusement cried, I decide it's time  
I got to move on now but I was so scared  
I was frightened, somewhat enlightened so I changed shoes  
Now I walk through a valley of color much better than the other  
Way I did not know, but now we can be united Miracle, miracle sighted, and I'm pulling it in  
I know by now we can all walk together at a regular speed  
Do you dare to be excited? Are you somewhat delighted?  
Are you aware somewhat delighted? At what you did not know  
Let's take it to the city on down, city on down  
To the city on down  
Yeah, yeah let's take it to the city on down Down, down, down  
Take it to the city on down  
Down, down, down  
City on down  
Down, down, down  
City on down, city on down on road  
Let's take it to the city on down
