

Peace

Chantal Chamandy

you came like the sunshine
your life became my world
a world I always dreamt of
with a boy or a girl every moment is a picture
each word a perfect sound
in your eyes I see the future
and I pray to God I'll always be around and hear you speak with conviction
teach us to believe
that love will bring us together
so we can achieve
a peaceful world for tomorrow
so that our children can live
without the fear and the sorrow teach us to believe I awake to watch you sleeping
and the smiles still on your face
just keep dreaming and believing
that everything you want will come your way and you will speak with conviction
teach us to believe
that love will bring us together
so we can achieve
a peaceful world for tomorrow
so that our children can live
without the fear and the sorrow teach us to believe don't be afraid to run
life doesn't wait for anyone, oh no
trust how you feel inside
and always and always believe to hear you speak with conviction
teach us to believe
that love will bring us together
so we can achieve
a peaceful world for tomorrow
so that our children can live
without the fear and the sorrow
