Its Too Late

Electrofied

Monday morning, hesitate
I cant get out of bed
Id rather go back to the dreams
Im living in my head
Yeah yeah yeah yeahTuesday evening, pack my bags
Im heading out the door
I left a box of memories
lying on the floor
Yeah yeah yeah yeahRide on ride til early morning turn
Ride on like the dawning of the day
Its too late
to let all your feelings show
Go on til the night is swept awayRunning from the city lights
Running from this empty life
Im running out of time tonight
Screaming out for help! Help!Slow down youre moving too fast
Go home youll feel better for it
Oh boy you better stop dreaming its all in your headCause its too late nowRide on ride til early morning turn
Ride on like the dawning of the day
Its too late
to let all your feelings show
Go on til the night is swept awayRide on run til early morning sun
Ride on like the morning of the day
Its too late
To let every feeling show
Ride on til the night is swept away
