

Champion

Fall Out Boy

Champion, champion I'm calling you from the future
To let you know we made a mistake
And there's a far old past that's giving me, giving me such a headache And I'm back with the madness
I'm a champion of the people who don't believe in champions
I got nothing but dreams inside
I got nothing but dreams I'm just young enough to still believe, still believe
But young enough not to know what to believe in
Young enough not to know what to believe in, yeah If I can live through this
If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
If I can live through this
I can do anything Champion, champion
Champion, champion I got rage every day, on the inside
The only thing I do is sit around and kill time
I'm trying to blow out the [pilot/violet?] light, I'm trying to blow out the light I'm just young enough to still
believe, still believe
We're young enough not to know what to believe in
Young enough not to know what to believe If I can live through this
If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
If I can live through this
I can do anything Champion, champion
I can do anything
Champion, champion
I can do anything
Champion, champion
I can do anything
Champion, champion
I can do anything! If I can live through this

If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
If I can live through this
I can do anything If I can live through this
If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
If I can live through this
I can do anything! Champion, champion
