With You

Lila McCann

Last night I couldn't sleep
I found it hard to even breathe
Oh I'm in trouble deep with you
Today I stayed in bed
Can't shake these voices in my head
I've fallen off the edge with youWell all my friends say that I'm
Way out of touch, if I'm not
Crazy then baby this must be loveI would go anywhere
Do anything, no I don't care
Long as I know
I'll always go with youNow it's all making sense
Forever's in the present tense
I know it all begins with you
Oh and so the story goes
I am yours to have and hold
And I can't wait to grow old with youWell all my friends say that I'm
Way out of touch, if I'm not
Crazy then maybe I'm crazy in loveI would go anywhere
Do anything, no I don't care
Long as I know
I'll always go with youWell all my friends say that I'm
Way out of touch, if I'm not
Crazy then baby this could be love
I would go anywhereI would go anywhere
Do anything, no I don't care
Long as I know
I'll always go with you
