

Drones

Black Peaks

The teachers late for class
I'm watching you
All rubbing your top brass
I'm watching you What would you look like with a Chelsea smile on your face
What do you know?
How would you feel me pushing needles in your gums
You know you want it, I just need it, I'll come get it YOU
YOU
How would you feel if you could walk in my shoes
What have you done
Pulling the skin from your cheeks piece by piece
You know you want it, I just need it, I'll come get it YOU
YOU Slip away, my love
Slip away, my only love
Slip away, my one and only love
Slip from me
Quick release
Slip for me, my love
Slip from me
Quick release
So cold COLD
Walk if you wake
To the sun
And its cold
Walk if you wake
To the sun
And its cold
Walk if you wake
To the sun
And its cold
