

In the Dark

JoJo

This aint the first or last time
Well meet up this late at night
To let our fates intertwine
Casually Id rather be
Detached from all tragedy
This dont need to be defined And I know that its wrong
I do, I do
Baby keep holding on
I do, I do
Yeah, I know that its wrong
I do
When the sun comes up Ill be gone [Chorus:]
I only know him in the dark
I only know him in the dark Try to stay desensitized
Keep my feelings out of mind
My body wont be denied
Never took this road before
Love was always out the court
Of anyone Ive been with before And I know that its wrong
I do, I do
Baby keep holding on
I do
Yeah, I know that its wrong
I do
When the sun comes up Ill be gone [Chorus:]
I only know him in the dark
I only know him in the dark The shadows across your face
Your lips a familiar taste
Stay focused, I try
Cant get this out of my mind
I want more than what this is
Whatever were calling this
The truth just breaks my heart [Chorus:]
I only know him in the dark
I only know him in the dark
