Steamy Windows

Erja Lyytinen

I was thinking about parking the other night
We was out on a back road
Me and my woman was just gettin' right
All systems on overloadThe radio blasting in the front seat
Turning out the music fine
We was snuggled up in the back seat
Making up for lost timeSteamy windows zero visibility
Steamy windows coming from the body heatYou can wine and dine with a woman all night
With good intent
But there's something about a confrontation on a back road
Breaks down the defenseSteamy windows ain't nobody can see
Steamy windows coming from the body heatThere's a sound outside the front door
And I know it's just the wind
But it makes her snuggle up just a little bit closer
And it starts things happening againSteamy windows zero visibility
Steamy windows coming from the body heatSteamy windows zero visibility
Steamy windows coming from the body heatSteamy windows
Steamy windows
