

Keep It Down

Carlos Jimenez

Back in the day, everything seemed to be okay
But okay, is just okay
And just alright, makes you think what could be on the other side
Runnin' with the big dogs, left those puppies on a porch
Scratchin' fleas is the least in the real world
If I knew then what I know now
Just alright, would be okay, somehow
Shh
Keep it down now
Could you keep it down?
Had it made, had it played itself out
In a sit-com style
So the landlord has his key in my door
I have amnesia for a while
I've seen ridiculous sunsets in a sickenin' sky
Made me feel really ill in a beautiful way
I've seen perfect people and I shield my eyes
I don't deserve to see their shame
Shh
Keep it down now
Just keep it down
I can't hear myself think
Who needs to think?
I know, I know, I know
...
Shh
