

# White Gold

## Ladytron

Back from the window  
Everythings subtle  
Temporary sanctuaryLook through the window  
Everythings subtle  
Tailored to fit, but nothings that simpleGold, you will always come to me  
With the power of deception  
Gold wont ever comfort me  
The color of deception  
The color of deceptionMove closer  
Subterfuge  
Illusions there for all to seeTheres no one left to rescue me  
Glass and stone, it cuts like a knife  
And gold wont ever comfort meGold, you will always come to me  
With the power of deception  
Gold wont ever comfort me  
The color of deception  
The color of deception
