

# Last Temptation

## The Twilight Singers

Every time I think of you  
I get the same old sinking feeling  
I think of a garden so still, I think of a cross upon a hill  
And I think you know what I'm sayin' So as these chords descend  
So I shall follow them  
Holler, "Catch me if you can"  
Holler, "Catch me" holler "Catch me" Baby, I'm goin' down  
Get your hands up off me, girl  
I think I know my way around by now They come to the party  
One by one  
Until it's done, until it's done My enemy  
You must think you have the best of me  
But you must know me to be vain  
To leave this undone would be such a shame So as these chords descend  
So I shall follow them  
Holler, "Catch me if you can"  
Holler, "Catch me", holler, "Catch me" Well, I will catch you by mornin', my God  
My God, my God Baby, I'm goin' down  
Get your hands up off me, girl  
I think I know my way around by now They come to the party  
One by one  
Until it's done, until it's done Baby, I'm goin' down  
Get your hands up off me, girl  
I think I know my way around by now They come to the party  
One by one  
Until it's done, until it's done Until it's done  
Until it's done  
Until it's done  
Until it's done
