Mountains

Michael Johns

Sun comes up as I lay down
Spent the night just running around
Chasing on you with all of your moves
You play so cheaply and I was your foolAnd now I'm never, never, never
Never, never gonna be the same
No, I'm never, never, never
Never, never gonna be the same'Cause I got high in your mountains
I was lost in your valley
I was washed into your ocean and the tide rolled up
I feel my heart start beating againYou treat me bad, you treat me kind
But I wanna do whatever's on your mind
You told me easy, you told me slow
You told me every which way but noAnd now I'm never, never, never
Never, never gonna be the same
You know I'm never, never, never
Never, never gonna be the same'Cause I got high in your mountains
I was lost in your valley
I was washed into your ocean and the tide rolled up
I feel my heart start beating againNow I'm never, never, never
Never never gonna be the same
I said I'm never, never, never
Never never gonna be the same'Cause I got high in your mountains
I was lost in your valley
I was washed into your ocean and the tide rolled up
I feel my heart start beatingHigh in your mountains
I was lost in your valley
I was washed into your ocean and the tide rolled up
I feel my heart start beating again
