Everything Is Fine

Big Wreck

So you hate me if I'm open
But you love me when I'm closed
I used to be outspoken
Only on the phone
Used to keep my letters
Underneath your bed
Underneath you dress was
Someone else's head
If once was enough for you
That's alright
If you can keep it closed
Then everything is fine
Everything is fine
Once you used to hold me
Up above the din
And I would say
Baby, watch the hell begin

And now you want to keep me
Down with all the pigs
And I say Baby, You're the only one I dig
If once was enough for you
That's alright
If you can keep them closed
Then everything is fine
Everything is fine
Everything is fine
You used to keep my letters
Underneath your bed
Underneath your dress was
Someone else's head
Everything is fine
