

# Friend Like Me

## Aladdin

Pinky promise  
Its gonna be alright  
Its gonna be alright  
Its gonna be alright  
Its gonna be alright  
Its gonna be alrightMany late nights when shes all alone  
She always call me up on the phone  
Begging me to come and spend the night  
Because she wants to rub me in her honeycombWhat she need is just a friend like me  
What she need is just a good friend like me  
What she need is just a friend like me  
What she need is just a good friend like meTold her friends that I treat her right  
And I love to vibe all day  
Feels so good just to be around  
A lotta times she dont want me to go awayWhat she need is just a friend like me  
What she need is just a good friend like me  
What she need is just a friend like me  
What she need is just a good friend like meAfter all you cant deny  
I took her where her feels  
Cant go on, you cant pretend  
Thats why shes asking me againWhat she need is just a friend like me  
What she need is just a good friend like me  
What she need is just a friend like me  
What she need is just a good friend like meIts gonna be alright  
Its gonna be alrightWhat she need is just a friend like me  
What she need is just a good friend like me  
What she need is just a friend like me  
What she need is just a good friend like meWhat she need is just a friend like me  
What she need is just a good friend like me  
What she need is just a friend like me  
What she need is just a good friend like meWhat she need is just a friend like me  
What she need is just a good friend like me  
What she need is just a friend like me  
What she need is just a good friend like meWhat she need is just a friend like me  
What she need is just a good friend like me  
What she need is just a friend like me

What she need is just a good friend like me  
True
