

# It's For You

## Out Hud

He's obtuse up there.  
She's up to something.  
And I can't breathe.

4 A.M.  
And I was sleeping, but the phone just rang.  
Dead air.  
And someone breathing who's up to something.

I'll leave and let you go  
And though you're moving a little too slow.  
I'll even let you know  
You did the right thing.

He's...  
She's...  
And I can't breathe. And I can't breathe.

4 A.M.  
And I was sleeping, but the phone just rang.  
\*ring\*  
"Hello?"  
Dead air.  
And someone breathing who's up to something.

I'll leave and let you go  
And though you're moving a little too slow.  
I'll even let you know  
You did the right thing.

\*ring\*  
"Hello?"
