Lullaby For A Sadist

KoÑ•n

It's easy I walk the circle I come down long ago
but somehow I get lost each time
feeding this song that deep inside that never ends
the voice within eats me up inside1 I love hurting you
2 I love your pain
3 Lets get together and play this endless game
4 is for the torture and
5 is for the shame
cause ever time you want it I get off on this gameYou wanted to play the coldness follows
This isn't a game your life I'll swallow
And I can't help to smile at your pain
You wanted to play but I already wonGholding I plant the seed inside your head right away watch it grow
destroying your insides
pleading to comfort you with my sadistic ways
I watch the tears fall
I crack a smile1 I love hurting you
2 I love your pain
3 Lets get together and play this endless game
4 is for the torture and
5 is for the shame
cause ever time you want it I get off on this gameYou wanted to play the coldness follows
This isn't a game your life I'll swallow
And I can't help to smile at your pain
You wanted to play but I already wonI look at you and start to crack start to crack
I give it too you take it back take it back
this lullaby is all you have all you have
sadistic pleasure I attack I attack
I attack
I attack
I attack
I attackYou wanted to play the coldness follows
This isn't a game your life full swallow
And I can't help to smile at your pain
You wanted to play but I already won
I already won
I already won
