

# Ominous Bloodvomit (Demo)

## Bloodbath

Stomach slashed open, he wields his blade  
Obsessed with flesh from evil he was made  
In my own blood soon my killer will wade  
    Puts glass into my mouth, a diet grim  
Fills me up with pain above the brimVomit of blood ominous sing  
    Puts my health on a steady decline  
    Terrifying scum bastard of the earth  
Life turns into torture amid its darkened mirthFlooding blood from every hole  
    Carving out the remains of my soul  
    Steaming out of my eyes, what a terrible deed  
The more I pray for mercy the more I bleedSacrificed to the freak  
    Still alive but so weak  
    His obsession will put me to death  
    And he smiles when I take my last breath
