

Get Up

Goldfinger

I see the lips move
But all I hear is shit
They act so natural
Faking crimes they don't admit We need action on the street
Moving with our feet
It's time to shout out loud
It's time to start a movement
And there's no time like right now It's time to
Get up, get up, get up
Why don't you
Stand up, stand up, stand up
It's time to
Get up, get up, get up
Why don't you
Stand up, stand up
It's time to start a fight Monkey see, monkey do
But all they see is death
Electrocuting, cut 'em up
Watch them take their last breath We need action on the street
Moving with our feet
It's time to shout out loud
It's time to start a movement
And there's no time like right now It's time to
Get up, get up, get up
Why don't you
Stand up, stand up, stand up
It's time to
Get up, get up, get up
Why don't you
Stand up, stand up
It's time to start a fight I've held my breath so many times
When I'm praying for the tortured souls
But your souls they seem to be done for
Your bodies they've waged wars
So what gives them the right
To take your life from you
Why do they all play God?
Who said that is your job It's time to
Get up, get up, get up

Why don't you
Stand up, stand up, stand up
It's time to
Get up, get up, get up
Why don't you
Stand up, stand up
It's time to start a fight I've heard it's a rat race
And their racing 'till they're dead
(get up, get up, get up)
Your pesticides commit homicides
With their frozen:
I've heard it's a rat race
And their racing 'till they're dead
(get up, get up, get up)
Your pesticides commit homicides
With their frozen: Now it's time to start a fight
