Kiss Tomorrow Goodbye

Luke Bryan

All we do right is make love
And we both know now that ain't enough
Ain't gonna beg you to stay
God I ask you what's wrong
Ain't no reason running after something already gone
Take off your leaving dress
Let's do what we do best
I guess everybody's got their way of moving on
Girl rest your head one more time in my bed
Love me like you loved me when you loved me
And you didn't have to try
Let's lay down tonight
And kiss tomorrow goodbyeBaby who we are just didn't work
But maybe we can leave with something out all this hurt
Ain't gonna beg you to stay
Ain't gotta ask you what's wrong
Ain't no reason running after something already gone
Take off your leaving dress
Let's do what we do best
I guess everybody's got their way of moving on
Girl rest your head one more time in my bed
Love me like you loved me when you loved me
And you didn't have to try
Let's lay down tonight
And kiss tomorrow goodbyeAin't gonna beg you to stay
Ain't gotta ask you what's wrong
Ain't no reason running after something already gone
Take off your leaving dress
Let's do what we do best
I guess everybody's got their way of moving on
Girl rest your head one more time in my bed
Love me like you loved me when you loved me
And you didn't have to try
Let's lay down tonight
And kiss tomorrow goodbye
Let's kiss tomorrow goodbye
