Dancing With The One-legged...

Marilyn Manson

{You're gonna have a bunch of angry kids
Well, when you do go out to a club
Wait, wait, wait
That, you just gotta watch yourself whatever you do

Yeah, sure

You just can't expect to go out there and just dance and don't get Touched and non violent because that's what it is

I, I don't see how

If you get the music inside your soul anything can happen. You don't play the music, you can't get it It's the music

The music?

Music is dangerous

My s s s sympathy to the parents}
