

# Apostrophe

## Storyboard

if you penetrate the door  
you've got a hallway highway to some other  
can you handle handrail, in all honesty  
stats out very uneven  
questionable how you're climbing  
steps?  
what's that mean  
i hear the creaking speaking  
very welli stand watching from the banister  
we are both equally explosive  
you've come in all unexposed and  
get your new skin on now  
on the outside again  
feels funny to you now  
looks like you get another shothere's a bat  
you're a hit with me furious in the fast fast forest  
body hollow attic  
looking for some skin to share  
apostrophe  
looking for me  
your eyes ask mine if i'm  
anywhere  
can you scal live wire  
quite impaired but i'm dying to take the dare  
so climb
