

Not This Time

Terror

Too long we let this all fall apart
Too long we believed in those with no heart
Too long fake fools we let them have their say
No more will you disgrace my everything Not this time
Not this time
No more
Not this time Too long values we let them blend and fade
Too long our truths they've gone so astray
Too long I believed you and I were one in the same
No more will you deface my only name Not this time
Not this time
No more
Not this time
